General Definitions

Annual: A plant that completes its entire life cycle from seed germination to seed production in one season in our zone.

Appropriateness of all Components: The plants used are environmentally suited and have similar cultural requirements.

Artistic Concept: Selection and organization of all components in the display. Appropriateness of components and their placement for design type if applicable.

Bulb/Tuber/Corm: A thickened bud with fleshy scales, usually growing below ground, as in onion, narcissus, tulip; or with narrow separate scales as in the lily.

Color: Degree of clarity, brightness and freshness of foliage, flowers, and stems.

Color Harmony: A pleasing combination of colors.

Collection: A collection consists of three flowers - three flowers each a different variety **OR** three flowers of the same variety with three different colors.

Condition: Healthy, blemish free (e.g. damage due to insects, disease, physiological, mechanical problems); neither immature nor past prime.

Conformity to Rules: Complies with all rules (overall rules and rules for its class).

Cultural Perfection: The quality such as color, form, substance, texture, size, compared to the standard for that variety.

Floriferousness: The abundance of flowers on an entire plant; a proportionate number of blooms for the size of the specimen.

Foliage: Amount according to type, proportional to stem, positioning on stem, if applicable.

Form: Balanced, appropriate to type; flowers & foliage balanced for flowering specimens. This applies to contour of individual components as well as to the contour of whole plant or design.

Grooming: Preparations that the exhibitor can control such as stem length, clean cut, foliage removed below water level, cleanliness, insects and presentation. No salt residue on potted plants.

Harmony: A consistent, orderly, or pleasing arrangement of parts.

Invasive A plant that is able to establish on many sites, grow quickly, and spread to the point of disrupting native plant communities or ecosystems. <https://dep.nj.gov> invasive-species

Native: A plant that occurs naturally in our region without direct or indirect human intervention. npsnj.org
(A Nativar is a cultivated plant that is bred from a straight native species.)

Perennial: A plant which lives for three or more years and after reaching maturity typically produces flowers and seeds each year. Perennials are classified as herbaceous if the top dies to the ground each winter, and as woody if the top persists as in shrubs and trees.

Plant Identification: A legible identification of the plants included.

Rarity: Significant difference from other entries in its uniqueness.

Size: Ideal or slightly above average for the variety.

Stem: May consist of multiple flowers.

Substance: Tissue structure, firmness or thickness.

Texture: The quality of the surface structure, such as rough, smooth, dull, or shiny.

Textural Contrast: A pleasing combination of different textures.

Tricolor: Three different colors.

Unity: The placement of elements to create a unified whole.

Additional Artistic Definitions

Creativity: An original concept in the selection and organization of all components. This can apply to the choice of materials or the manner of usage.

Design: Principles consist of Balance, Contrast, Dominance, Proportion, Scale, and Rhythm. Elements consist of Line, Form, Color, Texture, Pattern, Size, Space and Light.

Distinction: Superiority in all aspects. Exceptionally fine design negates minor faults. Moderate to major faults negatively affect Distinction. Degree of distinction is evident in craftsmanship, use of mechanics, and condition of all components.

Expression: Interpretation of class classification through the component/s or design element/s.
